Subject: DO NOT WANT EXTENSION TO STATE OF EMERGENCY
Date: Thursday, 3 March 2022 5:23:18 PM

To Whom It May Concern

This is to write in regards to the proposed extension of the State of Emergency until October 2022.

I want it recorded that I DO NOT agree with this or support this in any way. I request that this be stopped and I DO NOT want an extension to the state of emergency.

My reasons are both personal for my family and for the general Queensland community.

1) The Covid data has been greatly exaggerated and should be under investigation after the damage it has caused to the livelihood of the people the Queensland government are designed to protect. The Qld Government has failed us greatly.

2) The division and segregation that the mandates and state of emergency have caused to date, are far greater and more damaging to our society than Covid or the vaccination situation has been. The Queensland Government have allowed families, workplaces, life friendship and general community bond to be destroyed through this ongoing control and mandates. It needs to stop.

3) It breaks my heart to see loved ones, both friends and family, struggle amongst the financial pressures this government control has caused. The Queensland Government have caused my family of 7 (we have 5 children) great hardship. My husband has spent tens of thousands of dollars studying multiple degrees and years of training in 3 fields that he now can not work in any of them due to the vaccination mandate. Hospitality (He is a chef), Teaching (He was Head of Year 11 and a full-time High School) and a performing musician (for over 20 years).

He can no longer work in any of these industries.

The effect these unnecessary and sickening government control has had on our family and so many is disgusting and needs to end.

I ask that the extension of the State of Emergency be refused. Put an end to this evil control that is breaking the spirit of Queenslanders.

Let Australia and Queensland rebuild and get back to what it was.

Thank you

Cathy Geeves
