Subject: END EMERGENCY POWERS IN QUEENSLAND
Date: Thursday, 3 March 2022 5:27:51 PM

Hello,

I am writing to you in regards to the attempt to pass the bill to extend the State of Emergency until the 31st of October 2022 in Queensland.

I have had enough, every single person I have talked with has had a gut full of the crazy mandates, restrictions, brainless discrimination and division in our community and it needs to stop.

- Enough lives have been destroyed.
- Enough jobs have been lost.
- Enough people have been forced and coerced into taking a medical treatment that has not been tested properly and which is evidently not safe for many.
- Enough of the coercion of my fellow citizens to take a vaccine based on the threat that they will lose their jobs.
- Enough lies about the vaccine stopping the spread of the virus, and lying about the fact that vaccinated people can not spread the virus.
- Enough of discrimination of our citizens based on their vaccination status.
- Enough apartheid in Australia.
- Enough division and fear mongering.
- Enough false information on Covid and the brainwashing of our citizens
- Enough of the lies by the media and brainless statements that have been programmed into the brains of citizens over the last 2 years.
- When will the politicians be held accountable for the criminal mandates they have enforced on the public and for the coercion based on lies and false information?
- Everyone has seen that the vaccines have done nothing.
- All covid cases that have come to Queensland have arrived through the vaccinated citizens.
- Enough playing with the lives of our youth and the discrimination of people who wish to choose what is best for their health and their children.

I am personally appalled at the fact that this has gone on for this long, I am disgusted that a freedom loving country such as Australia has turned into something so ugly. I have lost two years of my life. I have friends who have had mental breakdowns, and it needs to stop.

I do not agree with the emergency laws being extended, I do not see a reason for them to be extended, there is no evidence to prove that any of the mandates have done anything other than extend the agony of this state and its citizens.

Why dont you for instance focus on providing early treatment programs to patients who find out that they have covid, instead of waiting for them to get so bad that they need to go to hospital.

We need our freedoms back, and we want them now. You will be making a terrible mistake if these emergency powers are not lifted. We need to wake up...there is no emergency. GIVE US OUR GOD GIVEN FREEDOM BACK.
