Subject: PUBLIC HEALTH AND OTHER LEGISLATION (EXTENSION OF EXPIRING PROVISIONS) AMENDMENT BILL 2022
Date: Thursday, 3 March 2022 5:29:42 PM

This bill and any bills concerning Covid are just plan tyrannical.

We have seen the death toll over the past two years is 83, as per TGA. THAT is not a pandemic figure.

We have seen numerous countries drop all mandates and public health legislation as their governments are aware of the gross injustice being done to their freedom, liberty and rights.

Court cases around the world - e.g. Canada, New Zealand, Ireland etc have all shown without a doubt, governments have no evidence that covid has been isolated, let alone being truthful that the fake vaccines, which are gene technology are maiming and killing more people than the virus ever has.

You guys need to wake up, stop pandering to the WEF, the WHO and anybody else that is pulling your strings.

We the people WILL NOT have it. We the people are the government, and it is OUR will that this nonsense is ended immediately, and those propagating the lies, including the media are all held accountable for aiding and abetting in genocide.

Has this bill been presented to both lower and upper houses of the QLD parliament?
Hmmmmm, no, perhaps we shouldn't go there.

We the people say no to this bill and we say no to Yvette D'Ath and the rest of the puppets in the playhouses that is QLD parliament.

May God be with you,

Jacqueline-Ann
