Subject: No Emergency Bill Extension
Date: Thursday, 3 March 2022 5:34:57 PM

Good afternoon

it has been brought to my attention that the Queensland Government is planning to extend the Covid Emergency Bill.

After 2 years of many restrictions, mandates and lockdowns which had a major impact on the state's economy, mental health, the well-being of our children and our community in general I am urging you NOT to extend this bill.

Allow Queenslanders (and all Australians) to return to a life of freedom, peace, safety and unity without on-going division, segregation, fear and insecurity.

Please DO NOT allow this to continue, too many people have been negatively affected for too long.

Thank you for listening to your community.

Kind regards

Georgina Madison
