Subject: No extension to emergency bill
Date: Thursday, 3 March 2022 5:50:02 PM

To whom it may concern,

I am wishing to express my opinion that the QLD emergency bill should NOT be extended due to the following:

- over extension of powers by parliamentary leaders especially Health officer, governor and premier;
- significant decline in QLD residents mental health status due to mandatory vaccine requirements with an experimental drug that has several adverse reactions associated with it;
- closure of small businesses
- implementation of mask requirements when there is no specific data proving it's health benefits (when all the data associated with constant mask wearing is actually bad for your health)
- closure of borders not being able to see family in dark moments ie. End of life / funerals etc.

Not sure why we need to extend it when several other countries in the world have started dropping all Covid restrictions and even some are listing it as an epidemic now not pandemic.
