---

Dear Committee,

I would like to say that my family and I do not support the Public Health and other Legislation (Extension of Expiring Provisions) Amendment Bill 2022.

Under no circumstances should this be agreed upon and brought into legislation as we are not seeing the numbers for a health emergency here in Queensland. We are currently in a flood emergency where many people are mixing together (vaccinated and unvaccinated) and we are not seeing any more cases of Covid-19.

I stand with many that don't want to see this extended.

Thank you.  
Myra Williams
