Subject: State of emergency mandates pandemic

My name is Jase.

I lost my home in 2021,
I lost my income in 2021.
I live in a caravan now.
I think it's time to end this madness.

Please do not extend the pandemic orders, mandatory vaccination or any other limits to business or public movements.

The government, Coles, Woolworths, Bunnings are the only businesses that have not lost a cent during this pandemic.

It's time to open up and let's build Stronger to last longer.

Regards

Jason Clark
