Subject: Public Health and Other Legislation (Extension of Expiring Provisions) Amendment Bill 2022

To whom it may concern:

I am writing to express my concerns regarding the Public Health and Other Legislation (Extension of Expiring Provisions) Amendment Bill 2022.

This bill should not be extended. We have all begun to come to terms with the fact that we need to move on with our lives and learn to live with the Covid 19 virus.

The impact that restriction on people's lives and business has been severe. Many have suffered mental stress as a result.

I personally will not have the vaccine and I will not allow my family to either. This is as a direct result of the dangers caused and documented as well as the documented evidence that the vaccine does not limit spread and does not reduce effect of the virus.

The restrictions on my movement and civil liberties is inhumane and I demand that these restrictions and mandates be reversed immediately.

Regards
Hilary Watson
