To the Qld Parliamentary Committee,

I write to state my opposition to the proposed further extension of the State of Emergency or the Public Health and other Legislation (Extension of Expiring provisions) Amendment Bill of 2022.

The fallout from these measures has been far reaching and hugely detrimental to the lives of Queenslanders and to our nation as a whole. People have been greatly traumatised through loss of relationships, the segregation of society, their jobs and careers, freedom of movement, the cost to their mental and physical health. The costs far outweigh any perceived or measurable benefit.

I do not consider this to be a necessary course of action and I request this Government to consider carefully what is really in the best interest of Queenslanders and the future welfare of the great State we live in.

Sincerely,
Elton Lucht.
