To whom it may concern.

I am writing to express my concern regarding the extension of the emergency bill to 31st October 2022. I request this bill be denied based on the following -

- Segregation in society
- Exaggeration of covid data both case numbers and severity.
- Discrimination through mandates.
- Small business failing due to unlawful mandates.

This needs to end now. Our hospitals are not overrun with covid. The pandemic was over long ago.

Kind regards  
Adam Rushton
