Re.: Public Health and other Legislation (Extension of Expiring Provisions) Amendment Bill
2022 Statement of Compatibility

Dear Ladies and Gentlemen

I herewith oppose to the proposed extension and amendment of the following Bill :
Public Health and other Legislation (Extension of Expiring Provisions) Amendment Bill 2022
Statement of Compatibility.

To be a healthy and strong democratic country, people need to make their own choices and
live life by learning, experiencing and gaining responsibility.
Too much power has been taken out of people's hands and given to a few who believe they
know better. This is an unhealthy development into a numb and mindless society.

Rules are to serve people, rather than people have to serve rules handed out by an elite
group of know-it-all.

Hand back responsibility over our body and health to each individual human being.

Stop the State of Emergency and move forward with faith.

I oppose further extension of the proposed Bill.

Thank you.
