3<sup>rd</sup> March 2022

Committee Secretary  
Community Support and Services  
Committee,  
Parliament House  
George St  
Brisbane Qld 4000

Dear Sir/Madam,

I do not support the passing of this Bill ie Public Health and Other Legislation (Extension of Expiring Provisions) Amendment Bill 2022 (Bill) because the State of Qld is not in a state of emergency. We have had extra rain that has caused flooding in different areas of South East Queensland but why should the State of Qld be declared that it is in emergency?

There is no health threat to the people of Qld.

What the people need is the Governments' assistance to obtain temporary housing and to initiate teams of assistance to those areas that need help. The state of emergency decreases peoples rights of liberty and decision making. If the state of Qld has over the 80% of double covid 19 vaccinations which was inferred to control the pandemic then why extend the state of emergency if these controls have taken place. The added advice of getting the booster covid 19 vaccination is like an overkill. Much information has shown that covid 19 sickness has occurred because of the vaccinations!

The people of Qld do not need the Government hovering over their daily lives. Let's get Queensland back on track and allow us to work together as a community, communicating with each other freely without authoritarian rule!

Regards,

Flo Ebert
