PUBLIC HEALTH AND OTHER LEGISLATION (EXTENSION OF EXPIRING PROVISIONS)
AMENDMENT BILL 2022

I, Paul Thompson of Clontarf Queensland do hereby decree that the above Public Health and Other Legislation Amendment Bill be scrapped due to the unnecessary overreach of government bureaucrats and officials.

The pandemic has run its course and it is now time to get on with life as there is no reason at all that the overreaching powers, that the Queensland Government has implemented, should continue to ruin people's lives with the ongoing mandates in the public arena and workforce.

We need to start moving forward and stop the discrimination of unvaccinated persons from entering certain venues and workplaces.

The mask mandates were also not scientifically or medically proven to be valid. This has caused irreversible health issues to numerous people throughout these draconian times.

Unless there is proof that there is a need for further restrictions for a virus with an over 98% survival rate, there is no medical or scientific reason why the state of emergency needs to be extended, unless it is ONLY for the sake of Government control and overreach on our civil liberties and freedoms!

Yours Sincerely,

Paul Thompson
