Subject: Extension to the state of emergency bill
Date: Thursday, 3 March 2022 8:14:47 PM

To whome it may concern,

I strongly object to any extension of the state of emergency bill.

The state of emergency is well and truly over.

The original state of emergency was a knee jerk reaction to a situation that had not been experienced before and that it understandable. Now however, the reason it was introduced is well and truly over.

The potential for continued discrimination via these emergency powers is completey unacceptable in our society.

The economic and social fallout has been devastating and must stop NOW.

The apparent high vaccination rate, low cases and transmission rate should now be taken into account.

Thank you in advance for this consideration.
