Subject: No more emergency powers
Date: Thursday, 3 March 2022 8:33:59 PM

Dear Committee Secretary

Regarding: public health and other legislation

I would like to formally advise that I do NOT agree or support the proposed bill or the extension of emergency powers.

COVID-19 is something we all have learnt to live with over the last two years. None of the measures set in place make any sense at all and the vaccine mandates have certainly done more harm than good: people have been left without an income and those who have been vaccinated have not been protected from the virus at all, not to mention the fact that the vaccine hasn't stopped people from spreading the virus.

Furthermore, there is a VAST difference between dying OF COVID and dying WITH COVID-19. The people have been deceived by the numbers communicated to them. Only a mere 1% (if even that high) truly died OF COVID, while the rest of the numbers died because of other underlying illnesses unfortunately enhanced by having the virus.

It is completely unnecessary and absurd to want to claim that we are in a state of emergency when we clearly are not!!

Please hear the people's voice and put a stop to this government overreach.

Sincerely
Nelía Arlow
