Dear Committee Secretary,

RE: PUBLIC Health and Other Legislation (Extension of Expiring Provisions) AMENDMENT BILL 2022 (BILL)

I DEEPLY OPPOSE to an extension to the STATE OF EMERGENCY Bill.

The vaccine mandates/ STATE OF EMERGENCY have torn families apart by creating division, caused predominantly by the gross misinformation that has been presented as fact.

Family members have been excluded from family gatherings.

People have been ostracised as a result of CHOOSING not to have the "vaccine".

We cannot even see a Doctor unless we've been given a "Vaccine" that is still in trial phases.

The death tolls have been grossly over reported, with the TGA and CDC admitting that only 8.6% and 6%, respectively, of COVID-19 deaths could be solely attributed to the Virus.

This colossal over prediction and over reporting of deaths has sent the world into a state of fear and panic, a state that governments have chosen to perpetuate, preferring to keep people fearful and isolated, instead of revealing pertinent truths such as the following:

- The predicted and reported severity of the Disease was/has been grossly overestimated.
- Healthy people are not at high risk of complications from SARS-COV-2 (Virus) if they do catch it.
- You can naturally boost your immune system to lessen symptoms if you do come into contact with the Virus (coincidentally the only thing that the so-called vaccines claim to do).
- Healthy people are not spreaders of disease.
- If you catch the virus there are safe and effective treatment protocols to aid in recovery (which have been used by doctors since March 2020) which do not involve vaccination.
- Natural infection gives longer-lasting and durable protection against reinfection

There is absolutely no justification for a state of emergency, let alone to extend it! Particularly when we have evidence of how the state of emergency will be used to terrorise, discriminate against, and destroy the lives and livelihoods of innocent Queenslanders. The state of emergency at this point is less about managing a crisis, and more about retaining the powers and control gained over Queenslanders since the start of the pandemic.

VACCINES HAVE PUT PEOPLE IN HARM'S WAY During its initial rollout in late 2020, we were told that mass vaccination (first of one dose, then two) of 70%, then 90% of the population, would be the only way to return to life as normal.

But here we are over a year later, and despite governments forcing, coercing, and bullying citizens to achieve their desired rates, we are told that a double dose is now insufficient and that all must submit to a 3rd dose. In some industries, already fully vaccinated individuals face economic and social

sanctions if they choose to abstain from a third dose. If the implementation of the vaccine mandates this past year is any guide, this mandate of a 3rd dose is likely to be imposed across all sectors and areas of society in the coming months.

These vaccines are experimental and only have emergency use authorisation. There are no clearly defined benefits for a vast portion of the population, nor do we have any data for the long-term risks of these experimental therapies that are only being used in humans because of the state of emergency.

In Queensland, there were 7 covid deaths reported before the introduction of the Covid vaccines. However, that number shot to 540 when the borders were opened to admit the vaccinated only, while the infection fatality rate in the elderly is higher now than it was before mass vaccination started.

This raises significant questions about the efficacy of the Covid vaccines. No democratic government would be able to mandate a medical experiment upon its population, particularly in light of this kind of damning evidence.

Yet under a state of emergency where democracy and apparently all reason is suspended, governments have been able to force their people to repeatedly partake in a medical experiment.

The long-term consequences of the vaccine are as yet unknown.

The danger caused to the individual and our communities by a continual state of emergency is therefore quite clear, and too grave to accommodate, much less accept.

On a personal level:

I have yet to come into contact with anybody who has been "infected". All the people that I know personally that have had Covid19 have been fully vaccinated.

A Very High percentage of people that have had the "vaccine", have done so simply because their job required.

██████████ is "vaccinate" as he is waiting for a kidney transplant – which has been delayed because of the "State of Emergency".

ENOUGH IS ENOUGH!!!
