Subject: Fwd: NO TO THE EXTENSION OF THE EMERGENCY BILL

To Whom it may concern,

I object to the extension of the emergency bill!

These are just some of my reasons:

The numbers are exaggerated.

Omricon variant is no greater than the flu.

Other countries around the world have removed ALL mandates and changed the status of the virus. Other countries did not impose the restrictive mandates that we have in QLD, Australia. The data shows they were no worse than they are and most importantly they didnt take away the peoples freedom!

Imposing of these mandates has affected way more than the health of a few poeple and has had devastating affects on lives,the true numbers of LOSS due to the virus is actually those affected by the mandates and will be widely greater than those LOST by the virus itself.

It is clear that the only reason to keep the powers of emergency is so the government can control the people.

I am/was a proud Australian I am AGAINST the extension of these powers and demand that ALL MANDATES are lifted. So not democratic!

Regards,

Jacob Muller
