Proposed Extension of Emergency Powers

QUEENSLAND,

To cssc@parliament.qld.gov.au)

Dear sirs

I note that the submission deadline for the above is 05 March 1200 hours.

Please do not allow the above Powers to be extended, it will be the ruin of Queensland.

1. **Please, no more lockdowns** - Queenslanders have suffered enough. It's not legal to the human race.
2. **Please no more mandates** for masks, vaccinations, work places etc.
3. **No Discrimination** - This has broken up many families and friends. Personally I am a 'leper' in my family's eyes.
4. If the Bill gets past, we are most likely to become a state of Dictatorship. .. worse still, the human race will not be any more .. this is worldwide how can people do this

Do we want this for our future generations - **NO**

Please consider all the above before you grant the above powers.

Thank you.

Marguerite McMahon
