---

To whom it may concern,

It has come to my attention that the Health Minister, Yvette D'Ath, has tabled a new Bill seeking to extend Queensland's Emergency laws for a further six months from 30th April 2022 to 31st October 2022.

Please accept this email as my submission to object.

I quite literally cannot believe that such a Bill is being sought when it is clear to see that the current measures have caused such complete and utter harm and devastation to the lives and livelihoods of so many people throughout Queensland for far too long already.

There has been a gross exaggeration of so-called COVID data to the fear and detriment of all who have been taken in by it, families and communities have been divided with devastating effects, our whole society is now one of segregation and unnecessary division and I for one have really had enough of the whole situation. Not for profit organisations in our community who exist to support and serve the community through offering crucial employment to disadvantaged community members have been forced to close their doors, many have lost their jobs or have had to give up their right to bodily autonomy to keep a roof over their family's heads. To be honest, I barely recognise this state, and in fact the Country, we live in any longer. This madness needs to end!

Yours faithfully,

Mrs Tracy Spooner
