**Subject:** DO NOT PASS Extension to Emergency Bill  
**Date:** Friday, 4 March 2022 11:19:11 AM

---

I am writing to you to plead that the Queensland Parliament listen to the people and DO NOT PASS THE BILL that is attempting to extend emergency powers for the Premier.

The emergency HAS WELL AND TRULY PASSED. There is no need to extend these powers.

I am currently out of work because I am not vaccinated because of health reasons. We are struggling to pay our mortgage. My daughter is unemployed and struggling with her mental health working through all these things.

These shut downs and mandates have put so much pressure on Australians. I know so many who are depressed and have anxiety. I know 5 close family and friends who have had a reaction to the vaccination. One nephew is now blind in one eye because of blood clots behind his eye. Why would anyone FORCE someone to take something that hasn't been PROVEN. Covid data coming out is already showing inconsistency in data collection and reaction to vaccinations data is being suppressed.

THE GOVERNMENT HAVE CHOSEN TO PUT IN PLACE MEASURES THAT ARE FAR WORSE THAN THE PROBLEM.

THE GOVERNMENT HAS NO RIGHT TO FORCE ITS PEOPLE TO TAKE SOMETHING THAT THEY DO NOT WISH TO TAKE.

There is NO NEED to extend these powers to October 2022.

Just as the world is starting to end covid restrictions and vax mandates, so should Australia!! So should Queensland. End the vax mandates immediately and allow people to return to work who have been unemployed.
