Subject: Cancel Emergency Powers
Date: Friday, 4 March 2022 11:20:11 AM

Good Morning

I am writing to you as a concerned member of the public who is calling on the government to cancel the emergency powers.

I believe it is time to cancel the powers for the following reasons:

- The emergency powers were established to protect people from covid-19. Since the beginning of Covid-19 the number of deaths caused by Covid are minimal.
- survival rate if you catch covid 19 is over 99% if you are healthy person
- average age of death with Covid is I believe 83 years old for men and 86 years old in women.
- Chief Health Officers have acknowledged and stated publicly that we are now entering an endemic and no longer in a pandemic.
- Restrictions are being eased across the country as it has been proven that we can live with Covid.
- The extensions of the Emergency Powers has been based on the Covid deaths which have been proven by the ABS data that these numbers have been exaggerated.
- Mandates across the country and world are being stopped in courts and proven that they are no longer needed.
- Other countries around the world are dropping all emergency powers, mandate and vaccine passports. It's time Australia Governments listened to the people and gave them back their freedoms.

Please CANCEL the emergency powers and do not extend them any further. People are really suffering and it is time Australia/Queensland was allowed to move on.

Thank you for taking the time to read my email, please allow the people to be listened to.

Regards

Lola Berriman.
