

Submission Regarding Public Health and Other Legislation
(Extension of Expiring Provisions) Amendment Bill 2022

<cssc@parliament.qld.gov.au>

03 March 2022

I am making this submission to make clear my strong objection to the proposed extension of Emergency Powers by the Queensland Government beyond the current period ending this month of March 2022.

The mandates in relation to COVID 19 have caused great harm and there is no evidence that these practices assist to prevent or reduce the spread of this virus. These measures instead have so far decimated Queensland small businesses, disrupted our children's schooling, separated families who cannot travel to see or assist a loved one.

I believe there is not reason whatsoever for these Emergency Powers to be extended.

Yours faithfully
Sue Lewis
