**Date:** Friday, 4 March 2022 11:20:41 AM

I speak for all that live at my property, 6 people do not consent to the purpose of the Bill as set out:

- further extend the operation of essential public health measures implemented to facilitate Queensland's response to the COVID-19 pandemic
- extend amendments to the *Corrective Services Act 2006*, *Disaster Management Act 2003* and *Mental Health Act 2016* to support the public health response.

This is unfair to continue with unnecessary restrictions to assist in the airborne flu virus which is only as bad as a cold to the majority of infected people, the restrictions and division of people within this country is apparent and inhumane. This is proven in your proceedings taking place to only vaccinated people, when vaccinated have appeared to be have been the only ones travelling between states during the border closures
