I am writing to express my objection of the extension of the amendments to the public health act, amendments to the corrective services act and the Emergency response act.

It is difficult to describe emotionally my contempt for your future vision for the Public Health, however it is obvious what you are trying to achieve.

It is with much anger that I am submitting my submission of absolute distain, towards the extensions of these acts.

I have a dream, that you & those that surround you & support these mandates & matters of this nature, have a massive reduction in the days of which you occupy this planet.

My details are below.
