No more enough it's been going on far too long.
We need to live with it as we have with the common cold.
People need to get on with their lives.

Thousands of people have lost their jobs over this covid stuff.
You need to stop and let the doctors, nurses, teachers etc., get back to work if they are jabbed or not.

Hospitals and schools are in a mess. Thousands of Businesses have closed down everywhere, the country is in a terrible state. Unemployment is at a high.
AND YOU KNOW IT.

You have contradicted your self in so many ways.
You can't catch it sitting down in food industries, but the moment you stand up you can.
You can't catch it outside walking pass someone, but you can catch it walking pass them in the shops.

Here is a great example:
My husband and I live in the same house with my elderly parents, and we just all travelled in the same car to the PA hospital in Brisbane and we were sitting on a chairs waiting for an appointment and told to sit 1.5m apart. Come on that doesn't make sense.

No more enough is enough.
