Subject: Extension of emergency.

To whom it may concern,

I am writing to plead with you not to pass this extension on the state of emergency bill.

It is very obvious that these mandates are ruining our country by causing division, and destroying people's lives by taking their freedom of choice or taking away their capacity to work and provide for their families.

There is a lot of scientific evidence available to prove that these mandates and vaccines have done nothing to protect anyone but rather have made the situation worse.

I believe this bill is a criminal act and purely a bid to control and suppress those who disagree and desire their constitutional rights to freedom of choice.
