Dear Committee

I am writing to you to inform you that I do not want an extension to the Emergency Bill until 31<sup>st</sup> October 2022.

The effects of these mandates have greatly negatively impacted Queenslanders resulting in lost jobs, closures of small business and pressure on the healthcare system.

It is now time with the Omicron variant proving less severe, to move forward and lift the pause on our everyday life. The extension of powers is based on Covid deaths in Qld and on Covid numbers which have been proven to be over inflated by earlier modelling. According to the government's own modelling, the peak is over.

Any extension to the emergency powers is unwarranted and should not be granted.

The potential for continued discrimination via these emergency powers is unacceptable to our democratic society.

Many Queenslanders, including myself now have natural immunity and as such, should be allowed to participate in society. The time for segregation is over.

Yours sincerely

Helen Robinson
