Submission regarding the -

# PUBLIC HEALTH AND OTHER LEGISLATION (EXTENSION OF EXPIRING PROVISIONS) AMENDMENT BILL 2022

Dear Sir/Madam,

I highly recommend you and your fellow Commission members take into account the State Member for Hill's address to Parliament on the 22nd February and the statistics he spoke therein.

He clearly states that deaths related to 'Covi 19' are MUCH less than other diseases like Diabetes, Heart disease etc. over the past 20 months

To extend further 'Emergency provisions' re Covid 19 is completely pointless. The State Government MUST address the death rate of other diseases as a higher priority

IF continuing the extensive harm the Vaccine mandates have caused ( I have witnessed much of the damage caused by Covid vaccinations) then I would Insist that the Commission refuse this Bill Completely and Utterly...

Yours Sincerely

Brett Turner
