Dear Committee Secretary

I am writing to you to formally advise that I do not support the Bill or the extension of the state of emergency.

The amount of suffering that I have witnessed / observed in the last two (2) years is absolutely heart wrenching because of the directives that have only been able to stand up because of the state of emergency that has been in place. After 2 years it is not a state of emergency, it is tyranny and as Robert J Kennedy stated, once governments take away our freedoms, the only way to get them back is fight for them, governments will not give freedoms back that they have stripped from the people.

Apparently these measures have been put in place to keep people safe and for people's health..... if governments truly cared about the health of the state/the nation, you would have closed bottle shops, stripped supermarket shelves of all the processed foods, putting in place directives that people can only buy wholefoods to boost their immune systems, governments would have insisted that people need as much physical movement, nature and sunshine as possible... governments would have directed communities to come together to ensure that no one was feeling lonely or isolated (loneliness/isolation creates so much sickness in our communities, so often leading to death).

I am absolutely appalled at how the government has treated the people over the last 2 years and if I was to write in detail what I have learnt from the world renowned doctors about the vaccines, it would be a 100 page essay, so instead I will include a link for an interview with Dr Robert Malone.

Dr Malone possibly best known for his instrumental work in developing the platform for mRNA-based vaccine technologies more than 30 years ago, there is nothing this man does not know about vaccines and mRNA technologies and the whole covid story.

"The conversation opened with Malone summarizing his bonafides and then describing his

approach to engaging his audiences.

“I try really hard to get people the information and help them to think, not tell them what to think,” Malone said.

Malone was true to his method throughout, being careful to identify fact from speculation, noting what is observed without assuming intent while helping Rogan explore the rabbit holes that we inevitably encounter when choosing to look just a bit further beyond what has become socially acceptable."

The vaccinologist, inventor and staunch advocate for informed consent told his personal story of getting COVID, suffering from long-COVID, getting the [Moderna](#) vaccination and suffering [adverse events](#) (stage III hypertension, heart arrhythmias, restless leg syndrome and narcolepsy) after the second jab.

Rogan took full advantage of his time with Malone, asking the questions media refuse to pose to their own identified “experts.”

Here are some of the key points discussed with time codes:

- **24:19:** An estimated 500,000 COVID Deaths resulted from the [suppression](#) of Ivermectin and Hydroxychloroquine (HCQ).
- **25:39:** Former head of the U.S. Food and Drug Administration (FDA), Dr. Janet Woodcock, intentionally prevented doctors from using HCQ outside of the hospital setting (HCQ is one of the few antiviral medications [safe in pregnancy](#) and is largely ineffective once a person has been hospitalized).
- **31:10:** [Pharma](#) industry’s systematic efforts to [discredit ivermectin](#).
- **32:40:** COVID deaths in the Indian State of Uttar Pradesh plummeted soon after packets of medicines were distributed to their population. It is suspected these packets included Ivermectin but this was never formally disclosed. This puzzling policy went into effect soon after a meeting between President Biden and Prime Minister Modi.
- **36:28:** Increased risk of [adverse events](#) from vaccinating after SARS-COV2 infection.
- **38:40:** [140 studies](#) demonstrate natural immunity is superior to vaccine-induced immunity. Natural immunity is 6- to 13-fold better than vaccination in preventing hospitalization.
- **43:44:** [The Trusted News Initiative](#) employed to protect western elections from foreign influence was used to justify the suppression of “misinformation” around the

pandemic.

- **50:15:** Emails between NIH Director Francis Collins and Fauci [demonstrate](#) an intention to launch a smear campaign against the founders of the Great Barrington Declaration.
- **54:00:** How is Israel (highly vaccinated) faring in comparison to Palestine (poorly vaccinated)?
- **57:00:** Why is good data nearly impossible to find?
- **1:06:00:** The regulatory process is broken because vaccine manufacturers are responsible for their own data (FDA is not doing its job as a regulatory body).
- **1:14:50:** Arguably the best clinicians of our day are having their medical licensure [attacked](#).
- **1:22:50:** [Hong Kong study](#) demonstrates that 1 in 2,700 boys getting hospitalized with myocarditis after vaccination.
- **1:27:00:** Lipid nanoparticles pose [danger to ovaries](#).
- **1:46:30:** Long COVID and post-vaccination syndrome are impossible to differentiate.
- **1:49:00:** Dysregulation of T-cells after vaccination may be causing latent virus reactivation (e.g., [shingles](#)).
- **1:59:00:** Omicron and the possible [negative efficacy](#) of vaccines.
- **2:06:20:** What is [Original Antigenic Sin](#)?
- **2:20:00:** Monoclonal antibody therapies are still important but have been limited by our authorities.
- **2:22:10:** Vaccine mandates are [illegal](#).
- **2:35:50:** [Pfizer](#) is one of the most [criminal](#) pharmaceutical organizations in the world.
- **2:37:00:** What are mass formation psychosis and tribalism?
- **2:53:00:** We are having a worldwide epidemic of [suicide in children](#).

Another link for a triple certified physician, Dr Zach Bush that will educate the people in government who claim to be experts about health, if we had people leading us like Dr Zach Bush, communities/populations would be thriving/flourishing, but it would also result in big pharma losing profits, because without sick people, their profits plummet. We all know that the government and big pharma work hand in hand.

Politicians would do themselves a tremendous service by listening to these incredible men, we need leaders like this:

[From a PANDEMIC of CONTROL to a Paradise of Possibility W/ Dr. Zach Bush MD & Charles Eisenstein](#)

"Since the birth of civilization humans have considered ourselves separate and opposed to nature—including our own body. This is a fallacy. We are an inextricable part of nature, and this realization begs a change in everything from birth to death. We have collectively reached our ecological and psychological limits and are now experiencing the labor pains of a necessary rebirth into unification. Dr. Zach Bush MD applies his vast medical and metaphysical experience in extrapolating how the four phases of birth apply to the rebirth of a new humanity. He is joined by one of the great philosophers and writers of our time, Charles Eisenstein. This is a must listen, once in a lifetime episode!"

There are millions and millions of us across the globe that have been busy educating ourselves over the last 2 years, especially about politics. I am left with having below zero respect in government/politicians, the people have been ignored, all for the benefit of the self serving politicians, you are all self serving individuals and we all know that premiers and the prime minister are not running the states/country, you are all reporting to higher powers (World Economic Forum).

The truth is coming into the light, more and more and more people waking up to the corruption, we are paying attention and we WILL NOT FORGET WHAT YOU HAVE ALL SUPPORTED and ALLOWED over the last 2 years, it is criminal. Please do what you are paid to do, which is to SERVE THE PEOPLE, you are not in those positions to serve yourselves. Get out from behind your desks and move around the communities to see for yourselves the suffering that is taking place every moment of every day. The suicide rate is sky high, beautiful people who have invested everything into their businesses only to lose their businesses because of the government over reach into their lives (blatantly obvious that you only want corporations flourishing, doing your utmost to rid our communities of small businesses), careers that people have invested their entire lives to, lost because of the government over reach, mandating an experimental injection, there is no data showing the impacts that these injections will have on human health and politicians think that it is ok to strip people of their livelihoods if they don't participate in an experiment, absolutely appalling. How can you all be proud of what you do to earn an income, you should all hang your head in shame.

REMEMBER we will not forget what has unfolded in the last 2 years. For the first time in 2 years, listen to the people, we do not want or need the state of emergency to be extended, all that has been achieved from extending the state of emergency is suffering and despair. I and millions of people, we do not need governments to tell us how to live our lives, none of you are shining examples of health, you all lack compassion, heart and soul. None of you represent the true definition of leadership, leadership is NOT dictatorship. Your soulless buildings are filled with individuals that are completely disconnected from self and the people. WE WILL NOT FORGET.

Yours sincerely

Janelle Beverley
