To the powers that be.

Please stop immediately the extension of the emergency powers, they are no longer needed or have ever been required.

If this covid has been a real pandemic, there would be millions upon millions dead, the yearly flu has taken many more lives than this event.

Your unlawful and cruel totalitarian mandates have caused incredible heartache, destroyed businesses, caused unprecedented mental health and well being concerns and frightened our young children unnecessarily.

We are at 90% and you still want to wield your discriminating decisions!

Stop the abuse.
