To whom it may concern,

I am writing to express that we strongly reject any extension to The Emergency Bill.

We strongly feel that there has been government overreach to segregate, discriminate and control Queensland people.

The vaccine mandates have led to staff shortages especially Police force, hospitals, aged care and schools. These mandates have also caused discrimination for unvaccinated people and rifts between family and friends, when many were facing lock downs and closed borders, separated from each other when they needed each other the most.

The mandates and constant lockdowns have also greatly impacted the education and social connection of our our kids.

Now is the time to come together and rebuild Queensland.

There is clearly no scientific data to support ongoing mandates, these mandates have had terrible consequences on small business, mental health and Queensland's financial recovery.

Therefore we feel that any extension to The Emergency Bill would have only negative results, We do not support it.
