Subject: Re: Opposition to the EXTENSION TO EMERGENCY BILL.
Date: Friday, 4 March 2022 11:43:00 AM

Dear Australian Citizen Representative,

I am writing to express my very strong opposition to the Bill that is being put forward in parliament to extend the “emergency state” of Queensland.

As an Australian citizen, who has observed the governments handling of COVID-19 over the last two years and have listened very carefully to the words of politicians and health offices, I have seen the COVID narrative change continually to what was initially a global pandemic to what is now no worse than the common cold!

Yet, extreme measures are still in place to segregate society, to control people, to negatively impact small business, tourism, to negatively impact mental health which has led to heightened suicide rates and so much more! I have observed politicians blatantly lie as have health officials. They have lied about the Covid numbers to incite fear and push a trial vaccine. Which even the creators of the vaccine themselves now acknowledged have limited efficacy... and are now saying natural immunity has greater efficacy! Yet, they are still being pushed onto our children in Australia and boosters continually encouraged.

Evidence of this is highlighted by the Australian Bureau of Statistics who have brought out the actual number of COVID-19 deaths which indicate that 83 Australians have died OF COVID-19 during the pandemic. The median age being 81 for males and 86 for females. All other deaths had at least three or more comorbidities. These numbers do not indicate a pandemic nor do they indicate the need for an extension to any emergency bill!

The proposed need for this bill is a massive overreach from the government and is based on lies, deception and fear pushed on the Australian people. I have personally been impacted financially and mentally as has many of my friends and family by this control, manipulation and overreach of the Australian government. Any member of Parliament who backs this bill will not be getting my support at the next election and I will be actively doing my part to educate my fellow Australian citizens to these lies and deception.

I ask you to have courage, to think about the Australian Constitution and the future of our country. I ask you to think about the continued impact this bill would have on businesses, mental health, and the lives of the Australian people. There is ZERO evidence to back a need for an extension of emergency state in Queensland.

In Hope of a Free Australia ... !
