Subject: Extension to the Emergency Bill
Date: Friday, 4 March 2022 11:44:17 AM

To whom it may concern

I am writing to express my grave concern that the state of emergency in QLD may be extended to October 2022.

Given the exaggeration of COVID-19 data, the overwhelming fear mongering, the clear segregation within society, not to mention the countless issues the Bill has attributed to regarding mental health, the economy, and employment to name a few, it is time to revoke it.

Australians allegedly reside in a democratic nation. It is the basic and innate human right of all that we can choose the way in which we live and how we are governed. It is not acceptable that a disease with over a 98% survival rate has quite literally shut the world down. Further, the fact that a medical experiment which has not been tested adequately and proven to be safe and effective has been pushed on the population is truly incomprehensible.

Please consider the need for the extension. Be compassionate. Ensure each individual can make a medical choice that is right for them, their family, their values and so on.

Thank you for your consideration.

Kind regards

Emma-Lee McDonald
