REGARDING:

PUBLIC HEALTH AND OTHER LEGISLATION (EXTENSION OF EXPIRING PROVISIONS)
AMENDMENT BILL 2022

I do **NOT** support this Bill.

Please listen to us. Please pay attention to what we are asking of you! Please begin honestly representing us, the People who put you in your positions.

Please listen!

FACTS:

- The mandates the government have created, originating from these legislations, have traumatised me and my family.
 - The MASKS have traumatised us, not the deaths.
 - The constant badgering of “covid news” on TV is traumatising my family, yet it is NOT being seen in reality, on the streets, or among our contacts – ie TV only, not news in our real lives. It is scarring us. We have turned away from Mainstream Media, which has helped. Please STOP – the government is **“flogging a dead horse.”**
 - The CASES are weak and pathetic colds and flu – there are not enough **DEATHS** to warrant such severe responses, in the form of mandates.
- The declared ‘severity’ of “covid cases” has not been witnessed by any family, friends, colleagues, friends of friends, distant relatives or even “friends of friends of friends.” No one, in our vast circle of friends, colleagues or associates, has SEEN a deadly, or even serious severity. I would sign a Statutory Declaration on this point. The “cases” (if proven accurate) have all been ridiculously MILD. They have been similar to colds and flu. Therefore, please do NOT extend the expiring provisions! The “virus” is harmless to young, middle-aged and healthy populations.
- Around the world, mandates are dropping:
 - Major Cruise Lines Are Dropping Mask Mandates (www.tripsavvy.com)
 - Big Cities Drop Vaccine Requirements as COVID Cases Fall... (www.cnet.com)
 - Japan Fully Drops COVID State of Emergency for 1st Time in 6 months (www.cbsnews.com)

Pay attention to what is happening around the world, like the rest of us do. Please take note. Why would you even **consider** extending the provisions? Why? Look around the world. Australia is an embarrassment in comparison. They are dropping globally, and we are even contemplating extending them?

PERSONAL EXPERIENCES:

- I have nurse friends, who **laugh** at the notion of extending these provisions. They are active, involved and engaged, registered and enrolled nurses. They are on the “frontline” and believe the idea is ludicrous.
- As a side thought, with the idiocy of the length of the current mandates and “rules” (masks etc), I can see people are getting tired of the façade. The rules should push themselves, innately. The rules should not need to be pushed externally, with a carrot/reward/freedoms for doing so. The sight of DEAD BODIES on the street should motivate people to mask up and wash hands, etc.

With that in mind, I am seeing many people DISREGARD the ‘rules’ anyway. We are so OVER all this unnecessary garbage. If this is extended, do you not run the risk of further apathy and carelessness? Would this only harm the government’s already bruised and hurting image?

Please listen to us. Please listen to me. I represent many who will not or cannot write an email submission.

Although rough, this has taken me TIME to compose. I need to be doing other things. This is PRIORITY in my mind.

Never before, in my 39 years of life, have I ever been so ashamed of my Australian flag. In my heart, I have never been more embarrassed for what it currently represents. Our government is NOT listening to its people. As a nation, we are a shambles.

I am utterly ashamed.

The government has taken away my employment, due to my personal decision not to participate in a medical experiment. I worked for this nation for 14 years. I work very hard. I volunteer with a State Emergency Service. I do my research, look closely and I read ingredients of **food** and **medications**. My “free choice” has rendered me unemployed.

Utterly ashamed of our nation.

PLEASE LISTEN TO OUR CRY!
