To whom it may concern

I am writing to express my concern about the possible extension of the emergency bill in Queensland. What has happened over the last 2 years especially, has created worry, stress, financial issues, a lot mental health issues, division among families and friends, and loss of businesses that were peoples livelihood and their complete life, just to name a few things . Most people by now have had covid or had the mandatory vaccines. Please don't continue with this emergency bill, please give people freedom to choose again. I would write more but I only knew about this 10 mins before I heard that we could write a letter.

Thank you so much

Mr Kim and Mrs Louise Niesler
