Subject: End not Extend Emergency Powers
Date: Friday, 4 March 2022 11:52:23 AM

The citizens of QLD need a removal of all emergency powers associated with the health crisis for the past 2 years since it has been shown in other countries that Corona should be treated as an endemic disease like the seasonal flu. Inflicting continuing restrictions on people of QLD can only now be considered as political use of this situation. This will be remembered and this Government will be removed as soon as possible.

Respectfully
Marilyn Rowsome
