Subject: DO NOT extend the Emergency Bill in Queensland
Date: Friday, 4 March 2022 11:53:20 AM

Dear Committee Members,

This letter is to state that I categorically and emphatically DO NOT want an Extension to the Emergency Bill until 31st October 2022.

Due to the emergency powers we have a two-tiered system in this state. This simply is not acceptable and has numerous adverse effects on the people of Australia. In my own life I have seen how it has affected friends and family members' mental health and stress levels. Many of my great colleagues and other excellent professional people who have lost their jobs due to these mandates. To think that these emergency powers have meant that people's livelihoods are at stake, my very own as I am now unemployed and wondering how I am going to pay my rent by 5pm today. This because I have to make a choice between their jobs or to take a medical experiment. Also, the Immunisation act states that vaccines should not be mandated. It is obvious that taking a vaccination in this instance doesn't make a difference whether you are unvaccinated or vaccinated. I got COVID from a double vaccinated nurse. How does that make no sense to then extend these emergency powers. It is not just about these vaccine mandates. It's about everything else that has created division and segregation in our society.

As a Queenslander I have never in my life seen anything like this. I implore you to think about the consequences of another two years of living like we have been since this all started back in 2020. Let us get back to how it used to be with people being given a choice to decide what they DO TO LOOK AFTER their OWN health.

I simply beg you to say NO without any hesitation and don't extend the State of Emergency Powers.

My contact details are as follows:
