**Subject:** Emergency bill extension  
**Date:** Friday, 4 March 2022 11:55:52 AM

---

To whom it may concern,

This email is to communicate my stance on:  
EXTENSION OF EMERGENCY BILL TILL 31/10/12

- NOT democratic  
Our country is being governed by Health authorities NOT elected by the people.

NOT legal  
Nuremberg code 2.0 is on the way with many lawyers and doctors.

NOT justified  
The highest mortality rate from Covid is from the 80+ demographic.  
Did they die from Covid or with covid?  
Every death is one death too many but 2589 deaths does not justify the pandemic status.  
Every life matters too and this ongoing crisis situation is destroying lives.

This "mystery" disease has been downgraded to Flu status.

\* Funny NOT funny!  
Bring back the days when flu was cured with chicken soup not with government intervention!

NOT realistic  
The goal of reaching zero cases is utopia.  
It has become a political competition between states in Australia and countries globally.

NOT explained  
people are treated with contempt when asking honest real questions  
people are intimidated and cohorsed into living in a onstant state of dread fear confusion and insecurity, leading to increase of mental health cases and suicides.

- NOT efficient  
Where are the positive results?  
Where are the goal posts?

The questionable benefits of draconian restrictions imposed on citizens of our beautiful country DO NOT outweigh the exaggerated risk.

NO consideration for the impact on the economy.  
Small businesses back bone of our evonomy are targeted and hit the hardest

- Emergency powers may have been necessary for a short time early days in order to assess the gravity of the situation but this extension is not acceptable not necessary and down right dangerous.

I, like many thousands others need and want a government who stops governing on crisis mode and damage control.

Citizen fighting for my children and grandchildren to live in a free country.

Dominique Rivero
