To Whom It May Concern:

I, Shaun Macgillivray write to you to submit my rejection of the Public Health and Other Legislation (Extension of Expiring Provisions) Amendment Bill 2022.

The government overreach and handling of this alleged pandemic has been somewhat questionable (a severe understatement), not based on any evidence, incompetent, unlawful and tyrannical. To give this government any more power, legislative or otherwise to manage and control the health and safety of everyday Australians would be illogical and outright insanity. Reasoning for this strong statement is unequivocally the governmental measures have done more harm than good. So, I must ask the question: why would Australian's want to give more power over to a government that abuses it? My reasons for this abuse of power are outlined below:

- The government can decide at any point we have a pandemic, when in the case of COVID the data shows we don't have one. I used **alleged** pandemic in the statement above because I do not believe we had/have a pandemic. The Government has known this but continues to enforce draconian powers and restrictions not based on any evidence or facts. Here are the true facts:

- COVID-19 has never been isolated and never proven to exist and if it did it is now endemic (if a disease is endemic a pandemic does not exist).

<https://www.drrobertyoung.com//post/lies-more-lies-and-damn-lies-from-those-we-are-mandated-to-trust>

- Department of Health and Human Services which clearly states that there are no 100% accurate tests for COVID-19 in Australia and the CDC also confirms that PCR test are an invalid diagnostic tool and gives a high number of false positives. What this means is that the numbers of people testing positive for COVID 19 is inaccurate and decisions to claim this as a pandemic are based on faulty misleading data and faulty over projections of modelling projections. However, the government persists to not consider this in their decision making, denying people of their rights and freedoms. See links below for evidence.

Read carefully, what this CDC directive tacitly admits is that the PCR test cannot differentiate between "SARS-CoV-2 and influenza viruses". We have known this from the outset.

- The current Bureau of Statistics data clearly shows that over the 22 months of COVID 273,901 Australians died, however of these deaths only 2639 people were covered related with 92% of these having three serious underlying conditions. That means only 83 people have died directly of COVID. HOW CAN THIS BE DECLARED A PANDEMIC? Some 100,000 people died of cancer 32,000 died of heart disease 30,000 died of Alzheimer's and dementia and 10,000 died of diabetes. The rates of suicide have risen dramatically, and the social, financial, mental health and financial impacts have been catastrophic. I do not know who did the risk-harm analysis, but they need to be fired. COVID related deaths represent fewer than 1% of the total deaths in Australia over the past 22 months the median age of COVID related deaths was 81 for man and 86 for women. Both are above our national average life span. Where is the evidence that COVID 19 is as deadly as it is claimed to be because this evidence proves otherwise? Far more people died from the flu than COVID. We had 2639 COVID deaths over 22 months, however over a period of 12 months in 2019 4124 people died of the flu. That is a far worse death toll, and no draconian measures were necessary to get Australians through it.
- Lock downs are unlawful and there is no evidence that lockdowns have prevented the spread of COVID 19 and people's lives have been severely impacted by these. This isolation has negatively impacted on mental/physical health, family relationships, people's working lives and have crippled people financially. Why has the government enforced this, knowing too well they are ineffective and detrimental?

- Border restrictions are unlawful and there is no evidence that they have prevented the spread and transmission of COVID. All they have prevented is the ability of people to travel freely for work (destroying livelihoods), recreation, and to visit family and loved ones. It is devastating the impact on these restrictions on people who couldn't visit their sick loved ones or say goodbye in person before they pass.

<https://medicalxpress.com/news/2022-02-border-closures-potential-long-term-mental.html>
- Mask wearing, which has proven to be ineffective in the spread and transmission of COVID has and is being mandated in Australia despite it also being harmful. WHY?

<https://swprs.org/face-masks-evidence/>
- Alleged vaccines or gene-based therapy have not proven to be safe. Just go to the TGA website and see all the adverse reactions and deaths. These are severely underreported. Why is the government and media ignoring this and why doesn't the government seem concerned about this? Many, many Australians and people all over the world are being injured, harmed and are dying and we don't even know what the long term effects are. Pfizer, an illegitimate pharmaceutical company with some of the biggest lawsuits in history filed against them reports in their trials disturbing adverse events that have also been ignored. This is insanity that any government would ignore these findings and continue to

purchase prescribe and coerce people to partake in a dangerous medical experiment – yes experiment, as they are only permitted for authorised use by the TA under the powers of the COVID-19 Emergency Response Act 2020. The shots have also been ineffective in the spread and transmission of COVID. Look at the real-world data. The more highly vaccinated countries have higher rates of COVID and since we started vaccinating in Australia, COVID numbers have steadily increased. Under the definition of a vaccine, the COVID shot does not even pass as it does not prevent transmission. There is little evidence that they prevent severe illness and disease, particularly when the evidence shows that more people are having adverse reactions from the vaccine than their health being negatively impacted by COVID. <https://dailyexpose.uk/2022/03/01/russia-distraction-uk-gov-revealed-triple-vaccinated-account-9-in-10-covid-deaths/>

- <https://dailyexpose.uk/2022/03/03/australia-9-in-10-icu-covid-deaths-fully-vaccinated/> Why is this mandated? There is no reason for this gene-based therapy to be mandated or given to anyone. THESE MANDATES NEED TO CEASE
- Work mandates are unlawful, unreasonable and unjustifiable. See articles: <https://home.nzcity.co.nz/news/article.aspx?id=349628>  
<https://constitutionwatch.com.au/vaccine-mandates-violate-the-right-to-informed-consent/>

I am a primary school teach and have lost my job due to the job mandates and this has severely impacted my mental health, relationship with my family, and finances. I know of many others who are in a similar situation and almost everyone I know has not wanted to take the vaccine but was financially coerced into it to keep their job. Most of them feel guilty and regret doing this. These impacts on people's lives are directly related to government decisions and legislation. Once again, why would Australian's want to give more power to the government how makes poor decisions such as these which have such a negative impact on everyday people with no justification for these decisions.

- Segregating society, preventing unvaccinated from attending events, restaurants etc. has no logical reasoning.
- Once successful small and medium sized business having to close their doors, crippling them financially and destroying their livelihoods – again for no justifiable reason.
- Then there are the children. This is incomprehensible what we have done to them. COVID posed almost zero risk to them, but we have injected them with an experimental drug, put dangerous masks on them and psychologically affected them for once again no rational reason.

I could provide endless evidence on the negative impacts that the decisions and enforced legislation has had on everyday Australian's and how there is zero, and I mean zero scientific evidence for their justification of these authoritarian, draconian, totalitarian and wildly ineffective strategies and measures to keep Queenslanders or anyone safe. I hope that there are still hope people who are in power that are running this country who have even a slight bit of, integrity, morals, principles, courage, values and good old common sense/logic to please, please, please not allow the extension of the Public Health and Other Legislation (Extension of Expiring Provisions) Amendment Bill 2022.

Kind Regards,

Shaun MacGillivray
