Subject: Objection to the Extension to the Emergency Bill until 31st October 2022
Date: Friday, 4 March 2022 11:58:58 AM

To Whom it May Concern,

I strongly object to any Extension of the Emergency Bill due to the now proven extremely low risk to the community in relation to the Omicron variant given data and what the public has now seen firsthand.

Given the huge negative side effects we have seen to businesses, mental health and our CHILDREN already due to these absurdly strict mandates I see no reason why we as Queenslanders would even be considering this as an option moving forwards.

Kind Regards,

PCooney
