I strenuously object to the further extension of emergency powers in Queensland any further. Why on earth is it that other similarly modern western democratic jurisdictions are dropping the unnecessary and draconian covid restrictions and yet we are looking at maintaining the opportunity to continue their use.

The place of my current employment is closing on the 31st of this month because of the climate of insecurity the Queensland Labor government has created over these last two years. I've had enough, I'm never voting for the Labor party again, you all lack transparency and I don't trust you anymore. Time to end this madness, we don't need anymore time to learn to 'live with covid' and most of us know the government is simply trying to normalise life with less autonomy, less government accountability and greatly reduced civil liberties and rights.
