I DO NOT want an extension to the Emergency bill. How dare this even be a consideration!!!

I DO NOT support the Public Health and Other Legislation (Extension of Expiring Provisions) Amendment Bill 2022 (Bill), which will allow the State of Emergency in Queensland to be extended to 31 October 2022.

My reasons are:

Certified Data

According to the latest figures from the Australian Bureau of Statistics (March 2020) there has been a gross exaggeration of the Covid 19 data on death reports.

The data states that 273,901 Australians died between March 2020 until the end of January 2022 .

How many had Corona Virus?

Answer: 0.9%. There were 2,639 were Covid related deaths.

In the same period;

100,000 Australians died from cancer.

32,000 Australians died from heart disease.

30,000 Australians died from Alzheimer and dementia.

10,000 Australians died diabetes.

The average annual number of deaths due to influenza and pneumonia between 2015 - 2019 is 2,908.

The median age of death of those who died of corona virus was 81 for men and 86 for women. Both are above our National life expectancy.

92% of the 2,639 covid related deaths had other underlying health issues; an average of roughly 3 diseases or conditions per person. These conditions ranged from pneumonia to kidney infection right up to the biggest risk factor of all. The health of our heart!

A new study in the American medical magazine called 'Lancet' states that "by far the biggest risk factor of Covid 19 is obesity".

America with a large population of obese adults and children had 920,000 corona related deaths. The 'Lanset' study also indicates that if American's obesity level was on par with other healthier nations their death rate from Covid would be at least 200,000 lower.

This emergency bill is now targeting the children. Innocent children with their whole lives ahead of them are being injected with a harmful, experimental toxin; the results of which will undoubtedly unfold in the forth - coming years.

These records from the Australian Bureau of statistics expose the overblown scare campaign we have witnessed.

This 'Emergency Bill' has destroyed health. It has destroyed the Australian economy and it has destroyed lives and will continue to destroy lives and livelihoods for many decades to come.

Mandates are nothing but draconian measures designed to remove our freedoms, control the population, and destroy lives.

I lost my job due to the mandates. Along with thousands of Nurses, Police, Fire Fighters, aged care personnel and many more.

Losing my job took away my ability to pay my mortgage.

Losing my job took away my financial security.

Losing my job took away my life goals.

Losing my job as well as the mandates have caused me a lot of anguish, heartache, fear and the loss of family relationships.

The mandates have restricted my social interaction.

It is time to stop the emergency bill, the draconian mandates, the lies and propaganda from governments and the main stream media that has been used on the Australian people for the past two years.
