

To Whom it May Concern (cssc@parliament.qld.gov.au)

I am writing to express my concern about any extension of pandemic powers of the QLD government at this point in time.

With borders open, cases falling, vaccination rates high and international visitors being welcomed and masks being dropped it seems counter intuitive to argue the need for such extraordinary powers to over-ride the normal working of our great democracy in this climate.

It would seem that if the need arises then a debate could be entered into then about how appropriate it is at that point in time.

However it is my strongly held opinion that we are not in the same space as a state and as a peoples where these extraordinary pandemic powers were invoked previously and extended late last year.

I strenuously encourage any member to vote against the further renewal of the powers AT THIS POINT IN TIME

Yours sincerely,

Alison Beresford
