TO WHOM IT MAY CONCERN

The extension of emergency powers is unnecessary.

- The continued use of these powers when there is no emergency undermines the trust of the Queensland people for their government and for the laws of our State.
- Any extension would be an overreach of government powers.
- It is time for the Government to return responsibility to the people of Queensland to manage their own health and health choices. There is no emergency.
- It is very obvious to all citizens that there is no emergency and any extension of these powers will be seen for what it is - a grab for power and playing politics.

I am opposed to the extension of emergency powers.

Yours sincerely,

Jennifer Goodwin.
