To whom it may concern,

I formally and strongly object to the Public Health and Other Legislation (Extension of Expiring Provisions) Amendment Bill 2022.

For the last 2 years the Queensland government has decided that people are too stupid to make their own decisions regarding health risks.

Damages to the economy were caused and continue to be caused by the government's poor decisions, let people make their own decisions and stop causing uncertainty.

I reject the Bill and the extension to the state of emergency. It is not needed now, and has set a dangerous precedent where free will and human rights are ignored in favour of "experts" who have been proven wrong on more than one occasion.
