Subject: Please do not extend state of Emergency

Dear Committee

Please there is no need to extend the state of emergency .

The covid cases have settled and no where near as expected with the new milder strain

Please allow natural immunity to slow build as it is now and that will make for a healthier safer community and population

The latest ABS figues support the easing of all restrictions so Business and families can regroup and survive

Hundreds of Thousands of Queenslanders have been more affected by these enforcements than the virus itself

Please can the Mandates be dropped for employment so people can go back to work to support their families otherwise they will become a financial and social burden to the hard working other part of the population
The facts are undeniable

Thank you for your consideration in this very grave situation Judi Foster [REDACTED]
