[REDACTED]

To whom it may concern.

My mother and I are opposing the extension of the Emergency Bill.

My 91 year old mother deserves the right to see other Families Members Interstate and as a Senior in our Society, and as her Carer, a responsibility, I hold dearly to my deceased father, I promised she would enjoy a quality of life that she certainly deserves to live out the rest of her day without " Fear and Segregation".

The same as every other Senior in Aged Cared Deserves.

They have spent the last 2 years of their lives "with nothing to look forward to because everything has been Unavailable to them, nothing to look forward too, and segregated from their loved ones, it's a disgrace and unjustified.

I also believe that what the Government is doing by continually Keeping people segregated is that it Sets an Example to our Younger Generation that's it OK to judge people based on their Medical Status and that it's OK to Discriminate against Others, and it's OK to Bully people if they do not do agree to do what they are told to do. THIS IS NOT OK, in our society, we are trying to Stamp Out Bullying and Violence and all it has done is create it, You only have to look at the number of people suffering from Anxiety and Depression and the Number of Suicides is higher than the number of people that have died with covid.

This is not the Type of Australia I want to be part of.

I am ashamed of my government for the first time in my life, and feel this is no longer a lucky country, unless we go back to the Basic Principles of Caring for the People that the Government Serve, by allowing the people in their own country to Have a Say, to Determine and Vote on all Acts that are being introduced in Parliament by the politicians.

Mrs.M. & K. Jacobsen
