To Whom It May Concern,

I am a very concerned Australian citizen. I grew up in beautiful Australia, where the population trusted their Government representatives.

During the last 2 years of being under Emergency Powers, we have witnessed the overreach of government control, that has achieved nothing more than divided communities', states, families and friends. It has sent Small Businesses broke, and left families in financial ruin. They have engineered emergency powers to serve their political agenda when it was supposed to be about keeping us safe from a virus.

We have spent 2 years listening to Chief Health Officers' so called Health advice. They said get the Jab, wash your hands, stay away from grandma, you will die, and reporting the manipulated death numbers to scare people into compliancy. This in my opinion is not health advice. Follow the science they say? There has never been any credible medical science to justify the lockdowns.

The so called Jab is an experimental procedure, which does not stop transmission, nor does it provide immunity. Stop the hospitalisation they say? Follow the science would mean scientific proof that this is to be the case.

So far we know that most of the population would not have needed hospitalisation and had a strong 98% of survival. It is a lie to say it has stopped hospitalization when no credible studies have been done to prove that statement. Watching and listening to real world-renowned specialists have shown that Pfizer falsified data, withholding safety data to promote their product. They have made billions of dollars with no accountability.

These specialists have been censored. Yet the voices heard are from those that have a vested interest. They get paid to say what their sponsors tell them to say. I do not look to celebrity influencers for my health advice.

Australian people have been duped and coerced into a very dangerous experimental mRNA medical procedure renamed the 'Jab' and called a vaccine. Take two shots they say, now

three shots!!! When will the shots stop? Our government has denied early treatment and withheld treatments that have been shown to be successful in managing the virus. WHY?

The government led by Palaszczuk has failed to keep a grasp on mitigating the many human facets of our state. In the beginning one can understand the decisions. However, as time went on and more was known of the real risks of this virus, the government did not adjust their overreach. She blocked many families out of Qld unless people adhered to her 'Experimental Vaccine PCR agenda. Even when people complied, she continued to disregard a compassionate approach, from requests for families to be united. [REDACTED] and bullies should not be tolerated. The Queensland government has treated people as if they are irresponsible children. We have had enough.

I have been denied, as many more families have, access to my families in other states. I will be forever left with grief in my heart for the careless heartless response by this government.

The border closure was the epitome of abuse of power. No decision was made on sound health advice, it was all politicised.

I have had enough! and feel that any extension of the Emergency Bill is fraught with a greater agenda. It will be a huge violation to our human rights.

There is no scientific reason to extend powers. We live in a democracy.

Please see reason, please see the danger you will place your fellow Australian's in by passing this Bill.

Please apply our constitutional rights to Freedom and do not pass this Bill.

Thank you for listening.

Iain Allison
