> Hello,
> I'm writing to express my desire to see the vaccine mandates and the current state of emergency ended.

> [REDACTED]

> These mandates have absolutely destroyed people and families. I understand that covid has also affected families, but please, let us learn to live with covid as we do the flu, while valuing peoples autonomy and their critical contribution to society. Our family have had covid, and whilst I know it affects people differently, my children and I simply suffered less then we have with a mild cold. Please allow people to chose whether they get vaccinated or not, without affecting their ability to work, live and participate freely in society.

> Please end the state of emergency and the vaccine mandates, before more families are crushed emotionally.

> I thank you kindly.
