Hello at Community Support and Services Committee In Queensland, there have been 507,746 confirmed cases of COVID-19, with 399 deaths relating to COVID-19 being Queensland residents. According to your your newly report. Therefore we have no State of Emergency in Queensland. 399 deaths relating to Covid as stated in Public Health and Other Legislation (Extension of Expiring Provisions) Amendment Bill 2022 Statement of Compatibility. Lots of these people were in the age group 80 - 90 and had underlying health issues. They would have died from a flu or influenza in the good old days.

Stop harassing us.

We the people want freedom and we want it right now.

Stop the vaccination of children with the experimental drug for Covid-19 immediately.

Give people their jobs back by removing all mandates to end discrimination and segregation.

Never again introduce the mandate for mask wearing as countless studies have proven beyond doubt that they are detrimental to health.

Open all state and international borders and keep them open.

Reinstate freedom of choice.

Stop the bill.

Stand by the people who elected you.

Stand for Freedom, Fairness and Diversity for all.

Regards

Ulla Melchiorson and Peder R. Rasmussen
